For those who demand excellence.

The knives in our Professional range look, feel and, most important of all, act the part.

Blades are precision ground and hand honed using high carbon stainless steel for perfect edge retention.

The handles are shaped to fit perfectly in the hand, the contours making it impossible for the knife to accidentally slip.

Made in Sheffield in the same tradition for generations, this award winning range of knives is an investment for years to come.

 Made in Sheffield.
