witness Since 1838

Taylor's Eye Witness was founded by John Taylor in the early part of the 19th Century. They have stood the test of time through an unrelenting dedication to quality, service and good old fashioned technical know-how in the design and production of kitchen knives and scissors. What they don't know about knives isn't worth knowing!

Sheffield

Endurance has been developed to be the toughest pocket knife we've ever produced and believe me, we've made a few. With rugged, triple bolt-locked handles and a sharpness and blade hardness you'd expect from a Taylor's Eye Witness pocket knife, they'll never let you down.

Like all our pocket knives, they have been made entirely by hand in our Sheffield factory by skilled craftsmen.
