Guarantee

Sheffield  
Made

Sterling  
Series

- Ground in Sheffield by skilled craftsmen
- High quality Chromium Molybdenum Vanadium stainless steel
- Tactile, pebble finish handle
- Lifetime guarantee

This knife is the culmination of 175 years of experience and dedication. Inspired by the tools and cutlery we were producing in the early 1900s, we set about bringing some of that tradition and heritage up-to-date with a design that combines modern production techniques with the expertise of our craftsmen.

The blades are made using high quality Chromium Molybdenum Vanadium stainless steel, which are hardened and tempered before being precision taper ground. The moulded handle is finished by hand for a tactile, pebble like feel. Each knife is then sharpened by hand and individually tested before leaving the factory.

taylor's  
eye witness since 1838

Taylor's Eye Witness was founded by John Taylor in the early part of the 19th Century. They have stood the test of time through an unrelenting dedication to quality, service and good old fashioned technical know-how in the design and production of kitchen knives and scissors. What they don't know about knives isn't worth knowing!
